## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 50 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 50 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

*Allowable Subject Matter*

1. Claims 1-18 and 42-64 are allowed. The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 12 and 15, the allowability of the claims resides, at least in part, in that the closest prior art of record Nishi (US patent 5,243,195) does not suggest or disclose either alone or combination, the claimed an arithmetic section for generating a group of a plurality of executable movement sequences out of a group of movement sequence candidates, each indicating a measurement order of the plurality of alignment marks, and selecting a movement operation between the plurality of alignment marks within the shortest time out of the group generated in combination with other elements and features of claimed invention.

With respect to independent claims 42, 49, 50-51, 55, 61-62 and 64, the allowability of the claims resides, at least in part, in that the closest prior art of record Dueck (US patent 5,200,677) does not suggest or disclose either alone or combination, the claimed a determining device which determines an order for positioning each of the areas to be detected into the predetermined detecting filed by using at least a nearest neighbor method, and Lin and Kernighan's approach, a K-OPT method, an evolutionary computation method and a combination thereof in combination with other elements and features of claimed invention.

With respect to independent claims 53 and 54, the allowability of the claims resides, at least in part, in that the closest prior art of record Nishi (US patent 5,243,195)

does not suggest or disclose either alone or combination, the claimed a transferring step of controlling a relative position between each of the shot area on the substrate and the predetermined pattern, base on the detected results in the detection of alignment mark, and sequentially transferring the predetermined pattern onto the shot area in combination with other elements and features of claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
